

An AI workforce for GCC small businesses, not **another slack tool.**

Revent AI Lab is a workspace where a business hires AI agents the way it hires staff, one per job, working on the company's own data, always with a human in control. One login, one secure read only Google connection, and a marketplace of agents that install in one click and report back with cited findings and 30/60/90 day plans.

 12 Agents live in the marketplace today	 10 Run fully free, no card, no trial clock	 2 Languages: English and Arabic, RTL	 8 More agents on the public roadmap
---	--	--	---

THE AGENTS MARKETPLACE

 CEO Brain PRO A private second brain, briefing the founder every morning with citations.	 Growth Officer PRO A fractional CMO with a GCC-aware calendar and bilingual content studio.	 SEO War Room MAX An SEO co-pilot on your Google data with prioritized recommendations.
 Business Pulse PRO Turns your spreadsheets into a board-ready health dashboard.	 Brand Radar FREE Get an AI-powered brand health audit from live public signals.	 Candidate Screener FREE Screens resumes and rank candidates with evidence-backed insights.
 Offer Letter Generator FREE Create professional, compliant offer letters in minutes.	 Signature Generator FREE Generate on-brand email signatures for every employee.	 Contract Sentinel MAX Review contracts and flag risky clauses with key dates.
 Customer Copilot MAX Triage tickets and drafts replies in Arabic or English.	 Procurement Officer PRO Run a governed procure-to-PO workflow with RFQs and approvals.	 Business Dashboard PRO A unified overview of your data, insights and key business metrics.

WHY BUSINESSES TRUST REVENT AI LAB

 Honest AI Every KPI computed from real data, with cited sources throughout.	 Approval-first Nothing spends or publishes without a human clicking approve.	 Private by design Encrypted per workspace, one customer never informs another.	 Built for the GCC Native Arabic content and Ramadan-aware calendars, not translation.	 Google connected One secure read-only connection to your Google data.	 Reports with sources Full depth analysis, plans, and drafts, with citations everywhere.
